WORK EXPERIENCE

Mobile Developer
Prudential Syariah
Apr 2025 – Present
- Spearheading the development of mobile applications tailored to Islamic financial services.
- Collaborating with cross-functional teams to deliver secure, user-friendly insurance solutions on iOS/Android platforms.
- Applying best practices in code structure, testing, and performance optimization.

Lead Frontend Engineer
PT IDStar Cipta Teknologi (IDStar)
Nov 2023 – Present
- Leading the frontend architecture for large-scale enterprise web applications.
- Mentoring junior developers and overseeing code quality across multiple projects.
- Working closely with clients to translate business requirements into technical solutions using React.js, Tailwind, and Next.js.
- Driving innovation in UI/UX patterns while maintaining consistency across the codebase.

Senior Frontend Developer
CIMB Niaga
Aug 2024 – Mar 2025
- Developed high-performance banking dashboards using React.js, Redux, and Axios.
- Ensured application responsiveness and cross-browser compatibility.
- Led frontend testing strategies with Jest, ensuring stable releases in a highly regulated environment.
- Participated in daily standups and agile ceremonies to align with product roadmaps.

Software Engineer
Sinbad
Aug 2021 – Nov 2023
- Engineered scalable web applications using React TypeScript, Redux, and Context API.
- Focused on clean code, performance optimization, and architectural scalability.
- Collaborated with UI/UX designers and backend teams to deliver seamless features and enhancements.
- Utilized Tailwind CSS for consistent design systems and GitLab CI/CD for deployment.

WORK EXPERIENCE

Frontend Developer
Aruna Indonesia (PT Aruna Jaya Nuswantara)
Mar 2019 – Aug 2021
- Built Android-based mobile apps and transitioned them into responsive web apps.
- Maintained the corporate website and implemented buyer interface improvements.
- Worked on e-commerce integration and logistics features for the seafood platform.

Frontend Developer
Logique Digital Indonesia
Sep 2018 – Mar 2019
- Maintained and enhanced the UI for several small to medium-scale projects.
- Managed front-end for VIPPlaza e-commerce and content management systems (CMS).
- Integrated frontend components with backend APIs for real-time updates.

Frontend Web Developer
Rembaka Bina Sembada
Jun 2018 – Sep 2018
- Developed company profile websites and CMS tools for internal use.
- Created administrative dashboards using Laravel and Blade templates.

Software Developer
PT FAN Integrasi Teknologi
Aug 2017 – May 2018
- Worked directly with Carrefour as a client.
- Developed Promotion Workflow (PWF) applications and supported POS system integration.
- Ensured system stability and delivered maintenance patches.

Software Developer (Bootcamp)
Moonlay Technologies
May 2017 – Jul 2017
- Participated in a 3-month intensive bootcamp focused on OOP principles and API development.
- Built RESTful APIs using Loopback.js and gained hands-on experience with ASP.NET.
